DETAILED ACTION

1. Amendment and response filed by applicants dated Mar. 8, 2007 have been entered and considered carefully.

Claims 1-9, 11-26 have been canceled. Claims 27-33 stayed withdrawn. Claim 10 as currently amended is pending.

2. ***Examiner's Amendment***

Authorization for this examiner's amendment was given in a telephone interview with Julie Lappin on May 21, 2007.

The 18th compound, 6,8-dichloro-5-methyl-2-(trifluoromethyl)-2H-chromene-3-carboxylic acid, and the 21st compound, 6-chloro-8-methyl-2-trifluoromethyl-2H-chromene-3-carboxylic acid are deleted.

The restriction between claims 27-33 and claim 10 is maintained. Claims 27-33 being drawn to the non-elected invention is canceled without prejudice against applicant's filing of divisional applications.

3. ***Reason of Allowance***

The following is an examiner's statement of reasons for allowance:

Applicants have deleted the compounds which were obvious variation of the WO 98/47890. The instantly claimed species have been terminally disclaimed against the issued generic claims. The limited species with the specific 6,7,8-position substituents also demarcated from the copending SN 10/801,446, thus, the provisional obviousness double patenting is dropped. The terminal disclaimer against US 6,034,256 is proper and accepted. Therefore, claim 10 as currently amended is allowed.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
